there is a lot of space over here - maybe this could be some type of animated section with reviews, animated website embed, previews of some of the work I have done, etc. I also like the idea of a slow motion animated Gaussian blur gradient moving slowly behind a distorted glass section.

Note

Move this section to the top under the intro but above the experience section - skills should have two purposes - show my skills, but also filter the roles so each job needs a set of applicable tags
